

Multi-Vision Integration

Vision to Action To Achieve Sustainable Communities

An Innovative Approach to Sustainable Redevelopment

- You “see” what others want
- Rely less on consensus
- Inspire hope and grassroots actions
- Leads to synergistic connections

What is the Vision to Action/ Multi-Vision Integration Process?

INDIVIDUAL IDEAS

become

DEDICATED ACTIONS

And thru INTEGRATION
show Community/ Regional

ASPIRATIONS

Why do we need Vision to Action?

To ensure success.

It is often the case with Federal undertakings that our proposed solutions to public needs are not sustainable or acceptable and thus are not implemented or fail in raising the public's well being .

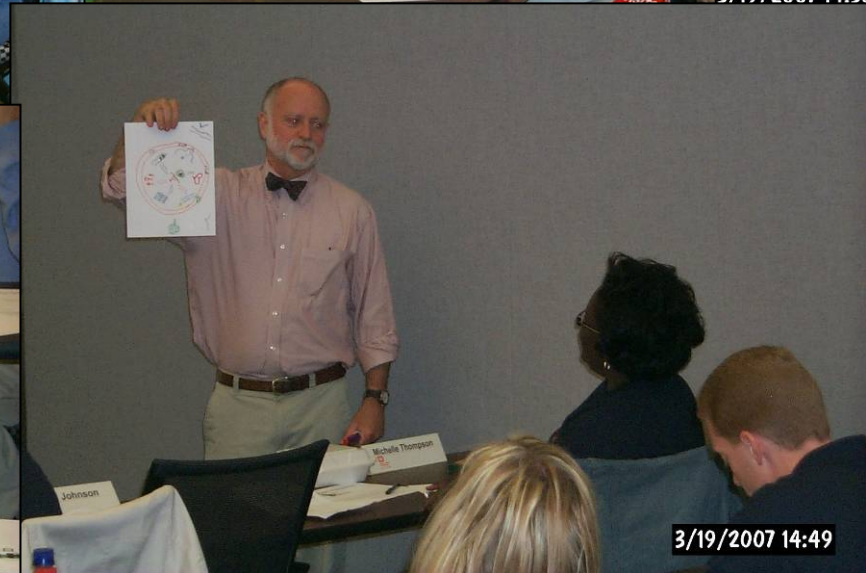

What the leadership Guru's say:

A personal vision is the deepest expression of what we want in life, and becomes both a guide for our decisions and gauge of our sense of satisfaction in life. Enabling those individual self-images to evolve into a shared community vision for the future, builds a contagion of excitement with an extraordinary sense of purpose, cooperative direction and energy.

Primal Leadership: Realizing the Power of
Emotional Intelligence

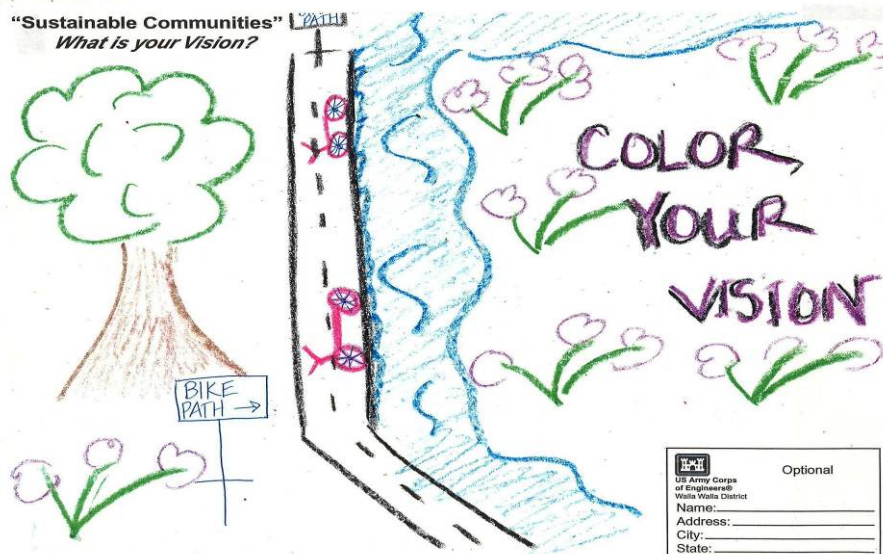

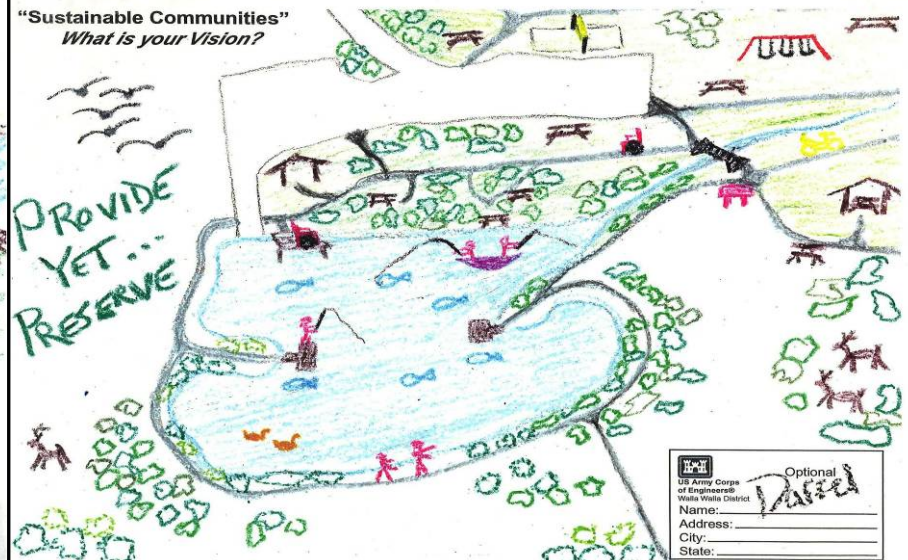

Corps Leadership Training

How did this all begin?

From an unmanned booth came 40 drawings

If you build it . . .

The Brownfields Experience

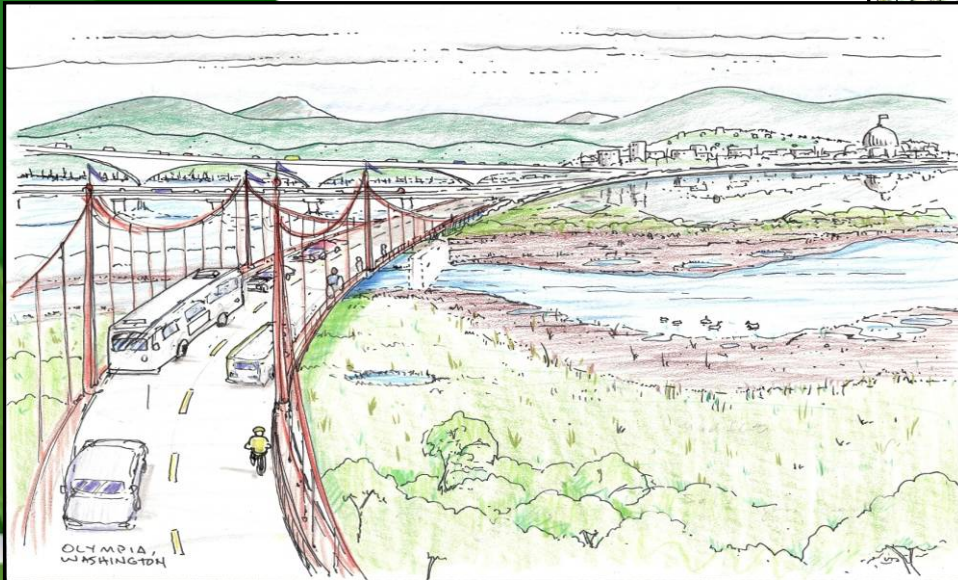

they will come!

Brownfields Conferences/Workshops

Brownfields Conferences/Workshops

AND FROM THESE CAME

- Indian Creek
- 7 EPA Brownfields Conferences/Workshops
- 4 EPA Community Pilots in Florida
- 12 Corps Leadership Courses

FUTURE

- 5 or 6 communities in North Carolina w/Ft. Bragg
- Passaic River , EPA Region 2
- Ohio River, EPA Region 5

Indian Creek Construction

Local Pilot Sessions held June 2006

How it works.

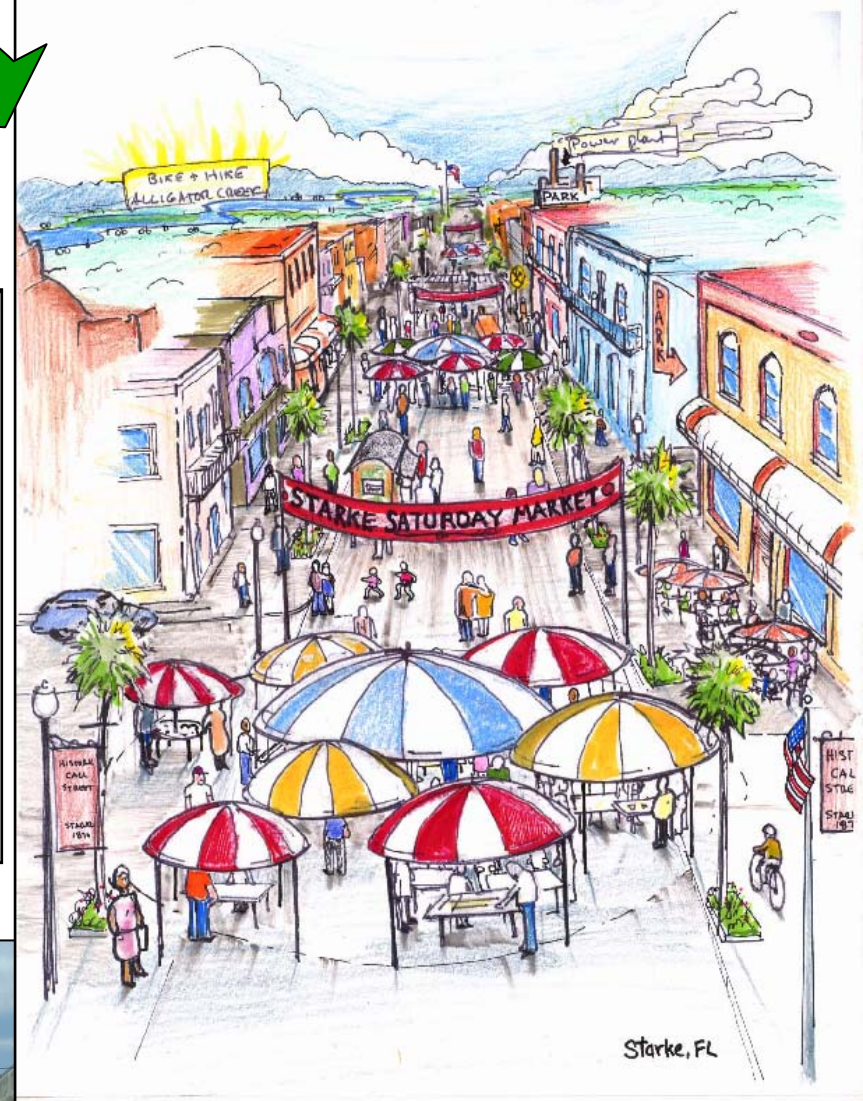

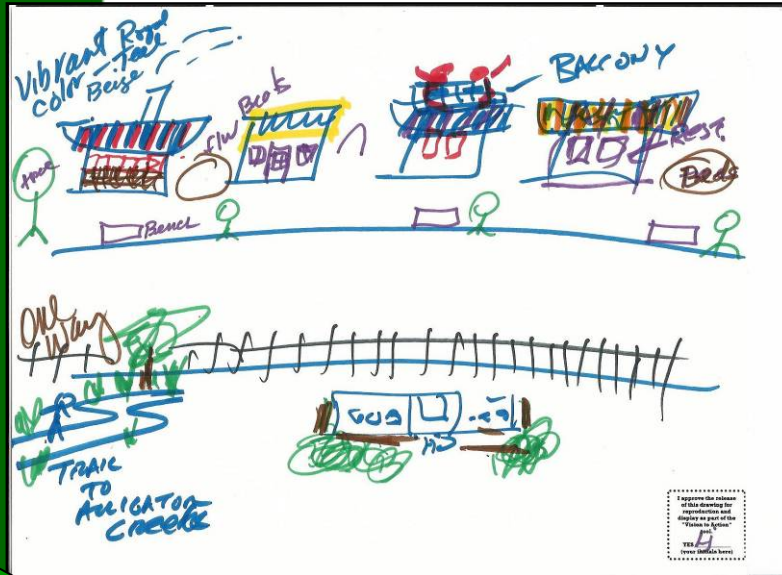

- **Draw your vision**
- **Share and connect your vision** to the visions of the rest of the participants.
- **Integrate these multiple visions** into a community action plans.

FARMER'S MARKET

What is Vision to Action

An innovative interview and visualizing technique for capturing and integrating individual and community visions.

How is the process different?

While similar community “visioning” initiatives are often structured to achieve predetermined design, business or economic solutions; the Vision to Action Tool is geared more to an open community forum with the goal to listen and obtain diverse individual visions and assessments, whatever they might be, and then integrate them into a regional or community vision.
